

Neutrix®

WAG 90 MAX

the tungsten grinder

Setting higher standards

- grinding in longitudinal direction
- stepless angle setting
- triple use of the grinding disc
- integrated dust extraction
- cone stump grinding possible
- running time 100%
- less dust
- able to grind tungsten electrodes as short as 15mm
- deburring for ac-welding

G90MAX

The pre-set depthgauge allows an economic grinding of the electrode tip (minimal consumption of the electrode, short grinding time, less dust and low wear of the diamond disc).

With a special clamp short tungsten electrodes as short as 15mm length can be grinded.

Through an inspection glass the grinding process can be observed and the grinding pressure checked. This is to prevent a glowing of the electrode and the diamond disc not to wear out quickly.

The integrated dust extraction and the exchangeable dust filter are another special feature of the device. They were adapted to the requirements for health and safety.

A solid base stabilizes the device during the grinding process.

The Neutrix carries a CE mark, satisfies all applicable EU regulations and is patented..

Neutrix® - the tungsten grinder

Typ WAG90 MAX

technical data:

power PI:	120 W
power supply:	230 V/ 50 - 60 Hz
duty cycle:	100 %
RPM:	2.950 min ⁻¹
Lpa sound pressure:	62,0 dB(A)
vibrationvalue:	2,8 m/s ²
electrode-diameter:	1,0 mm bis 8,0 mm
electrode-length:	von 175 mm bis 15 mm
filtercassette:	disposal filter (Typ 8511 K1.H12)
dustcontainer:	100 x 90 mm
diamonddisc:	ø 90 mm
weight:	12,1kg

art. nr.: 55000

scope of delivery:

Neutrix WAG 90MAX
electrodeholder
clamp for electrode ø 1,6 mm
clamp for electrode ø 2,4 m
clamp for electrode ø 3,2 mm
allen key 4 mm
wrench 13/17
wrench 8/10
cleaning brush
disposalbag for filter
suction cup
operation manual

accessories:

clamp for electrode ø 1,0 mm art. nr.: 55-00-21910
clamp for electrode ø 2,0 mm art. nr.: 55-00-21920
clamp for electrode ø 3,0 mm art. nr.: 55-00-21930
clamp for electrode ø 4,0 mm art. nr.: 55-00-21940
clamp for electrode ø 4,8 mm art. nr.: 55-00-21948
clamp for electrode ø 5,6 mm art. nr.: 55-00-21956

optional accessory:

clamp for elektrode ø 6,0 mm- 8,0 mm
special electrode holder
special clamp for tungsten electrode 15 mm lenght

service-kit

art. nr.: 55-00-90001
service-set Neutrix WAG90 MAX consisting of:
1 tube grease FDA-G2
1 dustcontainer
1 diamonddisc
1 filtercassette
1 suction cup
1 cleaning brush
1 operation manual
