004200

004205

004210

004215

Description:

Create and organise more storage space with the Siegmund ST Box and always have your tools at hand.

The ST Box has a total maximum load capacity of approx. 100 kg. Each drawer carries a maximum load of approx. 50 kg.

The totally enclosed design protects the drawer contents from dirt and weld spatters.

Regardless of table size and ribbing, the ST Box can be attached to every Siegmund welding table.

Self assembly instructions are provided and you can easily attach the assembled ST Box to your welding table.

Modular Tool Panel

Description:

Modular Toolwall - create your own personal toolwall by using different components.
 The Module 160930 (with System 16 bushing), is suitable for screw clamps, prisms and bolts.
 The Module 160931 (without bushing) can only be used with prisms and bolts.

By using the pin 160936 you can hang up all components with a drill hole of System 16.

The required back board is not included in delivery.
 We recommend using a glue-laminated wood board with a thickness of at least 5 cm.

Protective Welding Wall

Description:

Protective Welding Wall, enables dividing the table into two workspaces. Position and size of workspaces are determined by individual requirements.

The Protective Wall protects workspaces that are located next to each other from welding spatters. The Protective Wall is made of zinc coated sheet and is attached with two bolts. (The Protective Welding Wall is not scratch-proof due to production-related reasons).

Shipping Bracket

Description:

The Shipping Bracket with fastening plate has a load capacity of 700 kg. It is used to move welding tables and other heavy Siegmund elements safely and easily. It is fastened quickly and simply with four clamping bolts.

The general regulations for the use of shipping brackets must be followed. The load capacity can be reduced substantially, depending on operating conditions. During transport, the table may not be raised more than 100 mm, and no one is permitted underneath the table.

In addition, the shipping brackets can be used as an easy fastener for lashing straps.

Please consider following safety instructions:
Ring nuts should be completely bolted.
Ring nuts should bear flat and completely on support surface. Length of mating thread has to be sufficient.
Lateral pull should be avoided.
